

We are pleased to introduce the new Infinity 'lay-flat' digital storybook range. Suitable for all applications, this album can be customized to suit your exact requirements. With a customisable outer cover, you can have your own designs and text applied and graphics can run from the front cover, around the spine and over the rear page.

This portfolio offers the very best in bookbinding technology, with its 'Lat-Flat' system, allowing almost seamless double page spreads to be achieved for the most striking appearance.

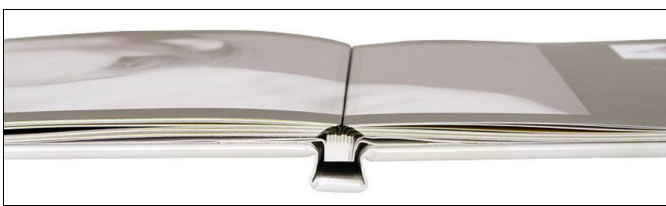

Outer covers can be customised with your own photographs and text in an infinite number of ways.

All graphics are created to your own specification and from scratch. We do not use pre-selected templates, so there are no rules. The cover is hard backed and laminated in gloss or matt.

The pages are made of the finest 210gsm heavyweight, silk coated paper and they are bound using the latest side stitching technology giving strength and durability unsurpassed by all others.

Customised backgrounds can be applied to the pages, allowing the photographs in the foreground to appear as though they are floating. Backgrounds can be selected from your own photographs and sized up to fit single and double page spreads.

The pages will lie flat without springiness and are bound in pairs within the book spine to allow double page graphics to overlap the internal seam.

This is great for showing off your prints in large format, particularly with group photographs and striking portraiture.

The Infinity Storybook is available in various sizes, the most popular size being 30x30cm, with a total of 20 single pages, or 10 double page spreads (or a mixture of the two).

This album is priced at £245.00 and includes a hard black storage box.
